

PRINT IN WHITE (AND FLUORESCENT TOO)!

UniNet iColor® Series of Printers and Digital Label Presses...
Available with optional Fluorescent White and Fluorescent Color Printing Kits!

What does this mean to you?

With our UniNet iColor® 300 and 500 Apparel Plus series of printers, **White Toner** allows for printing on black, dark and clear media or apparel in vibrant, fluorescent white. Imagine custom T-shirts, sweatshirts, invitations, menus, stationary, promotional items, labels and more which include full color, true black, fluorescent colors and brilliant fluorescent white!

What's more, our exclusive technology allows you print white **BEHIND** color. UniNet has the **only printers** on the market that have this capability! This is especially important on clear and dark material and media to enhance your text and graphics. Say goodbye to muddy colors on dark material - make your text and graphics pop with the iColor® Series of Printers and Digital Label Presses!

With our iColor® 700 and 900 Digital Label Presses, print on dark, black or clear roll to roll media in white with full color. Perfect for beer, wine, cosmetics, pharmaceutical labels and more. Print fluorescent white on white media for security labels which can only be seen under black light.

**Choose UniNet iColor® Series of Printers and Digital Label Presses
for your Short Run Digital Label Printing Needs!**

Why?

- Low temperature LED technology on all of our machines allow for more vibrant colors and the most diverse library of media available (PET, BOPP, wood venire, foils, tag stock, matte, semi gloss, high gloss, clear, dark media and more).
- The iColor® 700 and 900 have the ability to print directly on pre-die cut and kiss cut labels. Our patented auto-registration system keeps labels perfectly aligned from beginning to end. They also feature a patented feed system, where the label roll is stored underneath and away from the elements, saving valuable production space, as well as our optional variable data software package which allows you to print unique serial numbers, lot codes, bar codes and more within the same run.
