

**LABELEXPO  
AMERICAS 2016**

## **UniNet Presents iColor Printing Solutions for On Demand Label Production, Custom Label Finishing and Textile Transfer markets at LabelExpo Americas 2016**

**Los Angeles, CA-** UniNet will be exhibiting at **LabelExpo Americas 2016**, on September 13<sup>th</sup> - 15<sup>th</sup> (Booth #6665) at the Donald E. Stephens Convention Center in Rosemont, IL to showcase the iColor Printing Solutions Product line, including its NEW equipment releases.

The **iColor® 600 Short to Mid Run Portable Digital Color Tabloid Transfer Printer** with **white overprint** and **underprint** capabilities for textile transfers and in house marketing, capable of producing **tabloid sized**, professional quality transfer image prints **on-demand**. Showcase brand and company information on products and container labels, **retail packaging**, promotional giveaways, **banners**, brochures, mouse pads and much more. Produce a broad variety of **personalized garments** and items for teams, corporate gifts and special events. Match with the NEW iColor® LF600 Cut Sheet Finishing system for custom cutting and finishing of labels, tags, custom gift boxes, and much more!

The **iColor® LF 700 Digital Label Cutting with Built-In Lamination Table Top Finisher**, a versatile **INTEGRATED finishing solution** technology on the market featuring **lamination, contour cutting, waste matrix removal, slitting and final rewind**; all in a single, and compact footprint. Complete product label production digitally and **on-demand**. **Enhance** label quality and appearance for **lasting durability**, and **full protection**; ideal for **beverage, food, water bottle labels**, and much more. A perfect complement

The **iColor® LF 900 Wide Format Digital Label Finisher with Built-In Lamination**, developed to manage wider label media stock (up to 12.9") and to optimize the label finishing process on demand. Featuring **impressive speeds - 1.5 meters faster** than a standard finisher. Create customized shapes and sizes to suit practically any label need. Upgrade to the available double cutting head system for even faster cut speeds. A perfect complement to the iColor® 900 Production roll to roll Digital Label Press.

The UniNet® **Digital UV Coating System**, a cutting-edge **UV / Aqueous Coating System** that provides **on-demand digital printing with a quick and** effective solution to apply a **clear protective coating** to printed, roll to roll or cut sheet labels up to 10" wide by nearly any length. **Enhance** the look and value of **product labels, brochures, catalog covers, postcards, business cards and flyers**, and protect their surface from dirt, smudges, fingerprints, scratches and adds additional light-fastness. Apply a wide variety of finishes, such as high gloss, satin and matte, eliminating the need for dedicated finishing system.
