

Gutenberg & The Origins of UNINET®

The mythical tale goes like this: inventor Johannes Gutenberg began experimenting with printing in Strasbourg, France, in 1440. By 1450, he had a printing machine ready to use commercially. To make the type available in large quantities, Gutenberg applied a process known as replica-casting, using his ink devise to affix to metal rather than wood.

545 Years Later, in the mid-90s, in Los Angeles, California, a slightly disaffected Architect and soccer enthusiast found gold in repurposing toner cartridges, which later evolved into white-toner cartridges promising to revolutionize the printing industry for an additional 545 years. Infused by a mist of sudden excitement, he dreamed of a line of products that would prevent tons of plastic waste from going into the landfills. He soon realized he had yet to find a printing machine to fit them. Ironically, he was jammed. As opposed to Gutenberg, he had the ink. Now, he just needed to build the printer. In honor of Gutenberg's deeds (although not a single reference to Gutenberg can be found), he named his company **UNINET®** and began yet another chapter of developing superior custom printing solutions.

Reprinting The Future

Fast forward to 2012. The dawn of the all-digital era now calls for less waste with just on-time and on-demand short-run prints. **UNINET®** quickly answered this higher calling with IColor™, its On-Demand Solutions unit enabling users to print one or even a thousand pieces with minimal effort and waste, including some of the most sought-after lines of Transfer and Label printing solutions in the marketplace. CEO and Founder of **UNINET®**, **Nestor Saporiti**, vows, "As a kid, I had all these ideas for creating things that would improve people's lives. Today, my driver is still the same: supporting dreamers like me worldwide. It's never too late to create your dream business, and that's what **UNINET®** is here for".

Your future. Our Business.™

UNINET® **ICOLOR™**

ICOLOR™ 340

Apparel PLUS Transfer Printer

**Your Desktop Print Studio
for Custom Apparel & Hard Surface Decoration,
with ZERO Maintenance!**

This is not just a printer—it's your **complete business-in-a-box**, built for custom decorators who need speed, flexibility, and professional-grade results at a fraction of the cost.

What You Can Create.

Bring Your Ideas to Life.

With the **IColor™ 340**, you're not just printing but building a business. Whether it's one item or a full run, you can always deliver professional-quality results.

For Apparel & Textiles

- Custom T-shirts, hoodies, uniforms, and team gear
- Tote bags, hats, aprons, and more

For Hard Surfaces & Merchandise

- Mugs, glassware, wood, acrylic, and metal gifts
- Leather goods, tiles, and specialty items

For Business & Marketing

- Labels, stickers, and packaging
- Invitations, signage, and prototypes

If you can imagine it, you can print it.

Why Choose the IColor™ 340?

One Machine. Endless Possibilities.

- **7-in-1 Versatility:** White Overprint® Vibrant color transfers, White Underprint® transfers, metallics, fluorescents, sublimation, clear, and regular CMYK prints.
- **No Maintenance Headaches:** No ink, no clogs, just reliable, ready-to-go printing.
- **Superior White Toner:** High-opacity formula delivers twice the whiteness, producing the brightest whites and a solid background.
- **True Black Printing:** Achieve sharp text and graphics when white isn't needed to print items such as brochures, menus, and more (Black Cartridge sold separately).
- **Unlimited Possibilities:** Print and transfer onto fabrics, ceramics, glass, wood, leather, metal, acrylic, and more with our versatile, wide range of transfer papers.
- **Expandable Capabilities:** Switch between regular and specialty toner cartridges—no extra machines needed. Upgrade Kits are available for Dye Sublimation, Fluorescent, Clear, and Security effects.

Built for Entrepreneurs, Designed for Growth.

Launch your custom apparel line, expand into promotional products, or offer unique branding solutions from one compact **White Toner Transfer Printer** —the **IColor™ 340 Apparel PLUS** grows with you. From one piece to one hundred, it's built for short- to mid-volume runs where speed and flexibility matter.

- **Durable, Washable Transfers:** Weedless, soft, vibrant prints that resist peeling or fading.
- Print **banners up to 49.6"**
- **Pro-Level Software for Total Control:**
IColor™ ProRIP™ Essentials: Manage white layers, optimize toner use (up to 50% savings), control color output for production efficiency, and more.
IColor™ SmartCUT™ RIP Enhancement: Seamlessly print oversized images by splitting graphics across multiple transfer sheets.
Together, these tools turn your desktop into a professional print studio, ready to produce anything your customers dream of.

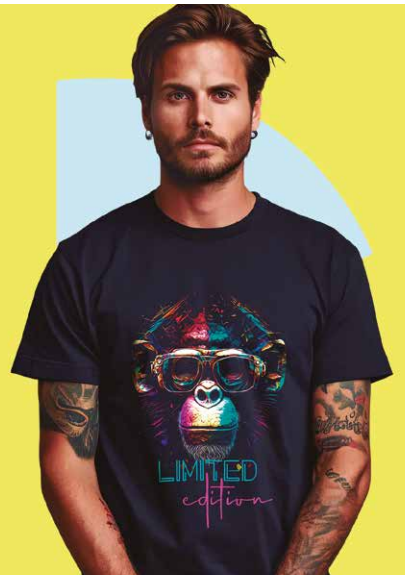

Everything You Need to Get Started!
