

IColor 800

Color Registration Procedure

If the printer registration is out of alignment, run the Color Registration Procedure

 Signs of this would appear as outlines of white or color around your graphic.

1. Using the touch screen on the printer, press User Tools on the home screen.
2. Select Maintenance > Image > Color Registration.
3. Press Start to execute the auto Color registration (This take about 30 seconds).
4. After 'Color Registration is complete' appears, press 'Exit'
