UNINET[®] X2[™] DTG Printer

**The Next-Generation
DTG & DTF Two-in-One Printer**

All Fabrics. All Sizes. One Solution

Turn Creativity into Profit.

The **UNINET® X2™ DTG Printer** is built for entrepreneurs and apparel businesses that want maximum versatility, reliability, and speed—all in one compact powerhouse. Built for medium to large runs, it prints on fabrics up to 1” thick with sizes from 10.5” x 13” to 16” x 19.6”.

What You Can Create.

From T-shirts to hoodies, totes, hats, koozies, shoes, socks, canvas, and more—the **UNINET® X2™** lets you deliver **vibrant, retail-quality prints** on cotton, blends, polyester, and even wood. With multiple platen sizes and fast swaps, you can print everything from baby apparel to oversized garments in minutes.

Why Choose a 2-in-1 DTG & DTF Printer?

- **One machine, endless opportunities:** Switch between DTG and DTF with one click.
- **Expand your product range:** Go beyond apparel and print on hard-to-reach fabrics and unique shapes.
- **Save space, boost efficiency:** A hybrid system that does more with less footprint.

Robust printing technology ideal for **new startups or established print shops**, the **UNINET® X2™** future-proofs your business with unmatched versatility.

Enjoy Some Key Features

Reliability That Works as Hard as You Do.

Four Industrial-grade printheads, a rugged design, and smart airflow protection ensure consistent results—even on demanding, high-volume jobs.

Rapid Platen Changes.

The Magnetic Snap System in platens (Small, Medium, Large) lets you switch sizes instantly—no tools, no delays. **Small Platen** 10.5” x 13” / **Medium Platen** 12.6” x 18” / **Large Platen** 16” x 19.6”.

Easy, Fast, and Intuitive.

- **7-inch Touchscreen** with powerful processing.
- **TurboRIP Software** for effortless DTG-to-DTF switching.
- **Smart Ink Technology** with specially formulated water-based pigmented ink that flows smoothly, reducing downtime and maintenance.

Lower Maintenance, More Printing.

Automated ink circulation, printhead cleaning, and monitoring systems keep your printer running longer—so you can focus on orders, not upkeep.

Ready for Business, Out of the Box.

Every **UNINET® X2™ DTG Printer** comes with:

- RIP Software
- Full set of inks (CMYK + 2 White)
- Three platens (Small, Medium, Large)
- Wagner HVLP power sprayer
- Training, support, and a 1-year UNINET® warranty

Compact Powerhouse for Big Ideas.

The **UNINET® X2™** fits into **small shops, garages, or maker spaces** with its sleek and compact design while delivering production-level performance. With Wi-Fi, USB, and Ethernet connectivity, it's always ready when you are.

UNINET® X2™ DTG Printer

Why choose one when you can have both?

The **UNINET® X2™** fuses DTG and DTF printing into a single machine, so you can print on apparel or transfer to **any fabric, any size, or any shape**.

Print more. Create more. Grow more.

With the **UNINET® X2™ DTG Printer**, you don't just print—you build a brand.
